

TEAM ROOM SEARCH

SCORE

TIME

POST NAME

Scenario: This event will simulate the explorers need to enter a smoke filled building, perform a search and remove a victim with the crew from inside the building.

Rules:

- Four explorers from each post will participate in full turnout gear and SCBA. **No running allowed.**
- A training dummy (approx. 125lbs) will be placed in the maze for a simulated rescue.
- Must maintain contact physical or verbal contact with team members, the hose line, or a determined directional wall. Teams are not required to use a hose line. However, crew integrity and orientation to the point of egress must be maintained at all times.
- SCBA masks will be blackened so that the participant will not have clear vision.
- If any team members' low air alarm goes off, time stops and all team members must exit the maze.
- Remember air management and accountability. Be precise, not just quick!

Actions:

1. Explorers don turnout gear and SCBA with air on.
2. Time Starts when team initiates an accountability system prior to entry.
3. Team marks entrance and enters maze with a simulated charged hose line.
4. Team performs a search, locates, and removes victim from maze. Time Stops once all members exit.

Equipment: Stop Watch, search maze, small tools, short rope/webbing, fire hose/nozzle

EVALUATE EACH TEAM ON:		Possible Points	Actual Points
1	Extends search system to entrance (hoseline advance)	1	
2	Initiates Accountability system	1	
3	Team enters maze with un-charged hose line, rope, or oriented search	1	
4	Performs interior search	1	
5	Check over, under, and behind furniture	1	
6	Team uses tools as appropriate for conducted a search (no TICs allowed)	1	
7	Team removes victim	1	
8	Team confirms no other victims are located in the area	1	
9	The post displayed good communication skills (clear, concise, essential)	1	
10	Post displayed confidence	1	
11	Effectively worked together to accomplish task	1	
12	Conducted a systematic search (turn same direction each time)	1	
13	The post displayed adequate knowledge of the evolution	1	
14	Consistently followed and demonstrated safety practices	1	
15	Team checks accountability upon exit	1	
CRITICAL CRITERIA			
1	Team maintains crew integrity at all times; enters & exits together	3	
2	Maintained <u>physical</u> or verbal contact with team members at all times	2	
3	Did not lose orientation to point of egress	2	
4	Entered maze with full protective gear on SCBA	2	
5	Team and victim exited where they entered	2	
6	Completed event within 10 minutes	2	
7	Low Air Alarm does not sound during event (exception given for malfunction)	2	
	TOTAL SCORE	30
